# AWNINGS

AMO SECURITY'S external shading solutions combine design, technical innovation and most importantly quality at a price that represents superior value. By using the very best materials, we can assure you that our products have a long service life, even in extreme weather conditions.

All models can be operated manually or electrically. Additional extras can include wireless sun and wind sensors, led lighting, and remote controlled patio heaters.

Whether you are a high street shop, public house, restaurant or city centre hotel, your business is in constant competition for attention. First impressions are important, the image a business portrays starts right on the street. Using signage on awnings, canopies and umbrellas can help businesses generate their brand identity and promote sales messages creating a presence.

Photographic images, sales messages and logos can be adhered onto almost any fabric and scaled to any size requested.

Retractable awnings are available in 3 types:- square bar, semi-cassette and cassette.

Canopies and walkways are designed, manufactured and installed to the client's precise specification. We offer a variety of configurations allowing you to build a bespoke business shading solution.

Covers are available in hundreds of designs and colours as part of the assembled awning or if you already have an awning or canopy we can bring it back to life with a cost effective recover.

All our retractable awnings are suitable for domestic and commercial installations.

## Technical Specification
