# CONTINENTAL SHUTTERS

## Technical Specification

### Curtain:

**Sentry 40mm** – Foam filled aluminium profile, up to 3250mm wide.

**Neptune 42mm** – Aluminium extruded profile, up to 2500mm wide.

**Guardian 44mm** – Aluminium double extruded profile, up to 5000mm wide.

### Bottom Rail:

Aluminium extruded profile with a rubber seal to bottom edge.

### Side Guides:

Aluminium extruded profile c/w brush insert; available in 53mm and 60mm legs (Curtain width and type dependent).

### Barrel:

60 & 70mm Octagonal and 62mm Round galvanised steel barrels are used for most applications.

### Locking:

**Manual** – Expansion lock neatly fitted into bottom rail.

**Electric** – Locking arm mechanism fitted to barrel.

### Operations:

Manual self-coiling via pre tensioned sprung barrels enabling push up, pull down action or via 240v electric tubular motor operated via rocker switch, key switch or remote control.

### Finishes:

**Sentry 40mm** – Standard colours of White and Dark brown (additional colours available on request).

**Neptune 42mm** – Standard colour of White.

**Guardian 44mm** – Standard colours of White and Dark brown.

The Neptune and Guardian range can also be powder coated to a standard RAL or BS4800 number to suit an individual application.

**Safety, security, peace of mind and added warmth to your home!**

To-day more than ever before we need physical security to protect our home against burglary, vandalism, or simply for your own peace of mind.

Tailor made to suit the aesthetics of your home, the security blinds offer an excellent visual deterrent, making it difficult for unwanted intruders.

The thermal insulation shield formed by the shutters creates a barrier of warm air between the glass, warming the glass to effectively reduce cold convection currents and provide better insulation, thus maximising our carbon footprint.

The security blinds can be half lowered during hot summers, keeping rooms cool and light and if not fully lowered, slits allow light and ventilation to pass into your room.

Operation from inside the home and locking automatically when closed.

Add style, security and protection to your valued possessions!

**“Excellence in retractable security”**
